Los Mesteños Career Academy/ Brooks County ISD Students Complete Intersession Construction Program

Los Mesteños Career Academy (LMCA) and the Brooks County Independent School District (BCISD) found a way to keep some students busy during their week off from school. The students kept busy by painting and fabricating BCISD'S tiny home. "We are very thankful and proud of our partnership with BCISD in presenting these carpentry skill opportunities for students", said Crystal Ramirez-Garcia, LMCA executive director. "We especially want to thank Dr. Casas and Oscar Galindo for their support at the administrative level and the dedication of Megan Kolbe in providing the daily instruction to the students", added Ms. Ramirez-Garcia. She also gave thanks to the students' hard work and dedication this week. For this intersession program, LMCA sponsored six participants who were awarded a \$250.00 stipend for participating.
